Art in STEM Research

FSU STEM student Art Gallery Exhibit
Science Outreach Event funded by ASCB COMPASS, hosted by Graduate Women in Science
This is a science outreach event, which aims to advocate for research in STEM by attracting public attention, not with the technicalities of scientific research, but with its beauty. This event will be held in the FSU Dirac Library in Spring 2015. Attendees will learn more about STEM research at FSU and its broader impact to society.

Does your data capture the artistic beauty of scientific research? Submit one of your images for potential exhibition in the event. This event is open to all FSU students and Postdocs conducting research in STEM. (Science Technology, Engineering, Mathematics).

Navigating Social Media
Wednesday, October 29, 2014; 3:00 pm – 4:30 pm
Scholars Commons Classroom, Room 05A (basement of Strozier Library)
Presenter: Mary Buzzetta, Career Counseling, Advising, and Programming at Florida State University
Description: Do you know how to use social media (e.g., Facebook, Twitter, LinkedIn) to search for a position inside or outside of academia? Do you know the most professional characteristics of networking with social media? Who should have access to your profile, friends and photographs? You will leave this interactive workshop with answers to these and other questions as you prepare to enter the job market.
Registration is required at https://fsu.qualtrics.com/SE/?SID=SV_6PAbekT75yBddQh

Nervous about your conference/seminar presentation? Feeling unprepared? Thinking about cancelling?
Thursday, November 6, 2014, 3:00 pm– 4:30 pm
Scholars Commons, 05A, Strozier
Presenter: Dr. Jennifer Proffitt, Associate Professor, School of Communication
Description: When the workshop ends, you will replace your nervousness with confidence that you will present your research with clarity, succinctly, and calmly. Among other points, Dr. Proffitt will discuss your presentation’s structure and delivery, the use of visual aids, and how to prepare for questions from the audience.

This blog contains advice from Dave Galgoczy on how to become a scientist that is comfortable operating independently.
Breaking up is so hard…
Ideally, mentors are there to encourage us, challenge us and to prepare us to ultimately leave them and seek greater adventures. This blog is written by Shu Chin Ma, and reflects on her transition experiences.
