Department

College of Social Work

The FSU College of Social Work boasts a thriving and active research community in areas that include, for example: Health, mental health, criminal justice, child welfare, and trauma-informed education. We routinely collaborate with other academic units e.g., the College of Medicine, College of Education, College of Arts & Sciences, and College of Nursing.

Equal Employment Opportunity

An Equal Opportunity/Access/Affirmative Action/Pro Disabled & Veteran Employer.

FSU's Equal Opportunity Statement can be viewed at:

http://www.hr.fsu.edu/PDF/Publications/diversity/EEO_Statement.pdf

Responsibilities

We currently have an opportunity for an early-career postdoctoral academic to join our team of scholars who will share responsibility for coding data, data analysis, manuscript preparation, and presentations of data associated within a National Institutes of Health (NIH) study. The postdoctoral fellow will join a research team led by Dr. Mike Killian and is funded by the National Institute for Allergy and Infectious Diseases (1R21AI148849-01A1). The project, Trajectories of Medication Adherence in Pediatric Organ Transplantation and Their Relationship to Posttransplant Health Outcomes, seeks to examine the association between patient and familial risk factors and long-term posttransplant health outcomes, examine patterns of medication adherence following recipient of an organ transplant, and estimate the risk of different posttransplant health outcomes.

As a Postdoctoral Researcher in this position, you will have opportunities to participate in project coordination, data analysis, manuscript preparation, and further grant writing. Additionally, the Postdoctoral Researcher has the opportunity to engage in individualized mentored research on substantive and/or methodological areas.

A Postdoctoral Research Assistant will work closely with the PI. This position includes a robust mentorship program, including meetings with the Dean of the College, the College of Medicine, members of the National Academy of Science, and faculty. They will be involved in data management, manuscript preparation, and dissemination of information. The post-doctoral position is designed to give successful applicants the opportunity to engage in an interdisciplinary research experience.

Qualifications

Academic doctorate in social work or a related field with a demonstrated record of achievement in research.

Candidates should have strong writing skills with knowledge of basic and advanced research methods, the process of peer-reviewed publication, and an ability to work independently.

Have previously published at least 2 publications in social work or a related field.

Preferred

Experience with and research interests in chronic illnesses, psychosocial determinants of health behavior, and promotion of health behaviors in children are important for this position.

Other Information

The following items are required in the Attachments section of the application:

- CV/Resume
- A cover letter of qualifications and research interests (can be combined with the cover letter)

The following items need to be submitted to the contact email below:

- Two sample publications
- Contact information for three professional references
