We are pleased to announce the second year of support for The Provost Postdoctoral Fellowship Program that provides an outstanding opportunity to seek postdoctoral trainees from diverse backgrounds and individuals with a mission to increase diversity and inclusion of our postdoctoral trainees. Our long-term goal is to enhance the diversity of scholars entering faculty positions by providing a competitive and supportive postdoctoral experience as a bridge to the next career level in academia. Please read more about the PPFP program, eligibility, or to submit your application, please see this link - https://opda.fsu.edu/fellowships-and-awards/postdoctoral-fellowships-and-stipend-support/provost-postdoctoral-fellowship.

If you are interested in serving as a faculty mentor, visit the site above to submit your required profile information by December 1st, so you can start advertising for PPFP applicants. If you would like to update your information posted from the 2018-2020 season, you can follow the same qualtrics survey to add any new training opportunities to your current profile. Here is the link to the current faculty profiles for your reference - https://opda.fsu.edu/ppfp-participating-faculty-unit-listing

Individuals interested in applying to be a PPFP Scholar can submit their application materials starting on November 1st, 2019. Review of applications will begin at the end of December and continue as a rolling admission process until all positions are filled for the 2020-2022 training period. Applicants will be notified of the status of their admission packet approximately 6 weeks following submission of their materials. Accepted PPFP Scholars can commence their training as early as May 1, 2020 but must start before December 31, 2020.

POSTDOCTORAL PROFESSIONAL DEVELOPMENT TRAVEL AWARDS

Have a special conference or travel opportunity in mind for which you would like to showcase your research, reach out to future employers, or network with scholars in your field to form collaborations or solve technical hurdles?? Check out our professional development travel awards for postdoctoral scholars that support up the $1,000 of your travel-related expenses. Applications are now being accepted for the January 1, 2020 deadline for travel occurring Jan 1 to June 30, 2020. Read more - https://opda.fsu.edu/awards-and-fellowships/travel-awards
BIOLOGICAL SCIENCE/NEUROSCIENCE POSTDOCTORAL MENTORING WORKSHOP & LUNCH

KIN Life Science Building, room 2057, 12:00 – 1:00 PM, Typically the Second Monday

The theme for fall 2019/spring 2020 is 'Industry, Government and Non-profit jobs for Biologists'

Our 2019-2020 Bio/Neuro Postdoc Workshop and Lunch series starts next week and the theme for this year is 'Industry, Government and Non-profit jobs for Biologists'.

Please mark your calendars for the fall 2019/Spring 2020 postdoc workshops. This is a special, faculty-led monthly workshop for Postdoctoral Scholars hosted by the Department of Biological Science and the Program in Neuroscience. Although the career focus will be directed to the Life Sciences, all Postdoctoral Scholars and senior Graduate Students are welcome. Sandwiches will be served over the lunch hour during the workshops. Dates, presenters and topics are listed below. For questions, please contact Dr. Kay Jones. No registration required.

Ximbassador

XIMBASSADOR PROGRAM
Internship Opportunity in the Life Sciences

What does this opportunity involve?
FSU and Ximbio are looking for candidates to engage with laboratories on campus and uncover new reagents and materials of interest to other scientists. The Ximbassador will contribute to the identification, description, and commercialization of novel research reagents generated at the university. This paid internship, running alongside the Ximbassador’s day-to-day research, is temporary and part-time: 5 hours per week, 20 hours per month. Compensation: $20 per hour, for 5 hours per week.

Who can apply?
This position would be ideal for a post-doc, PhD or graduate life scientist (e.g. in immunology, virology, biological sciences, biochemistry, cell biology, and molecular biology) looking to gain experience in alternative careers in science e.g. technology transfer and commercialization of tangible biological materials.

Where is it based?
At FSU where the Ximbassador is based as a day-to-day representative. The Ximbassador program is jointly carried out by FSU and Ximbio.

Want more information?
Email your cover letter and CV/resume or questions to sabrina.kamran@ximbio.com
Application closes: December 6th, 2019

Who is Ximbio?
Ximbio is the world’s largest non-profit tech transfer service dedicated to life science research reagents of all kinds. Ximbio is owned and operated by Cancer Research UK, the world’s largest independent funder of cancer research. Our mission is to make all research reagents (such as cell lines, antibodies, mouse models, zebrafish, proteins, small molecules, microbial strains, etc.) widely and easily available to accelerate life science research.

Postdocs, would you like help to disseminate your research, service, and mentoring achievements to a broader audience via the @FSU Postdocs Twitter account? If you have exciting new findings, just been published, received a grant or award, got hired for a new position, or have other accomplishments you would like to share for yourself or your mentees, please share them with us. Just send the content to be tweeted to Biological Science postdoc Matt Holding at mlholding@fsu.edu and it will be shared on @FSU Postdocs. Use the following guidelines to prepare your content:

Send links to papers or websites, photos of the activity, or other material that isn’t just text. Tweets get more traction if they contain content other than text alone.

Provide less than 280 characters of text for the tweet describing the activity. Include Twitter handles for your colleagues/collaborators where appropriate, if you know them, and any #hashtags to which the tweet can link. We can also retweet content you put out on our own Twitter account if you drop us a line with your Twitter handle and the specific tweet we should retweet.

CANCER CONTROL RESEARCH TRAINING PROGRAM

The University of Rochester Medical Center Cancer Control & Psychoneuroimmunology Laboratory is actively seeking outstanding candidates for their upcoming group of Fellows for 2019. The applicants should be interested in longitudinal studies and clinical trials on translational (e.g. biomarker) symptom science research and/or cancer-related cognitive impairment research to work closely with Dr. Michelle Janelins (Associate Professor) and her research team. Candidates they are interested in come from a variety of backgrounds including, but not limited to, neuroscience, cognitive science, clinical psychology, epidemiology, clinical trials, applied sciences, and many more.

For more information, and to apply, please click here.

Materials can be sent directly to Dr. Michelle Janelins or Dr. Gary Morrow (Program Director)

FELLOWSHIPS

Postdoctoral Research Fellowships in Biology (PRFB)
Deadline: November 19, 2019
**The NCI Pre-doctoral to Postdoctoral Fellow Transition Award (F99/K00) NIH**
Application Deadline: December 4, 2019

**ALSF Young Investigator Award**
Application deadline: December 16, 2019

**Burroughs Wellcome Fund**
Proposal deadline: January 8, 2020

**Hanna H. Gray Fellows Program**
Deadline: January 8, 2020

**Burroughs Wellcome Fund – Postdoctoral Enrichment Program**
Application deadline: January 15, 2020

**Neuroendocrine Tumor research Foundation – AACR Grant**
Deadline: January 7, 2020

**Helen Hay Whitney Foundation – Biomedical Research**
Application deadline: July 1, 2020

**Mathematical Sciences Postdoctoral Research Fellowships (MSPRF)**
Deadline: October 21, 2020

**Postdoc Research Funding Opportunities in Germany**
Application deadlines vary

**Index of Postdoc Fellowships in the Life Sciences (Broad Institute)**

**Postdoctoral Positions Available -**

FSU Program in Neuroscience Postdoctoral Research Position. A postdoctoral research position is open and available in the lab of Dr. Alan Spector, Department of Psychology and Neuroscience. For more information, or if interested in applying, please click [here](#) for complete information, or contact Dr. Alan Spector at: spector@psy.fsu.edu.

Looking for motivated Postdocs to research mechanisms involved in regulated remodeling of muscle T-tubule membranes in fly models of human myopathy with funding for immediate start date!

For more information, please click [here](#) to view flyer. Please contact Dr. Amy Kiger, Section of Cell & Development Biology University of California San Diego at akiger@ucsd.edu.
The Kaczorowski Lab at The Jackson Laboratory is seeking Postdoctoral and Research Scientist Level personnel to investigate mechanisms underlying susceptibility and resilience to normal aging and Alzheimer’s disease (https://www.neuro-central.com/2018/09/19/risk-resilience-understanding-role-genetics-alzheimers-disease/). Dr. Kaczorowski is an Associate Professor and the Evnin Family Endowed Chair in Alzheimer’s Research at the Jackson Laboratory – a research institution specializing in genetics and genomics in order to discover solutions for disease. Projects leverage new translational mouse models, electrophysiology, circuit mapping and genome engineering to decipher how genetic and environmental factors interact to influence learning and memory abilities, cognitive aging, neurodegeneration, and Alzheimer’s. Sources of support include NIH, Bright Focus, and The Glenn Foundation for Medical Research, as well as generous philanthropy awards in support of research and innovation in areas of normal aging and Alzheimer’s disease.

Exceptional candidates will have the opportunity to apply for the prestigious JAX Scholar award, which supports promising early-career postdoctoral associates conducting cutting edge biomedical and basic biological research at JAX. The award includes an independent research and travel budget and a salary above our standard postdoctoral scale https://www.jax.org/education-and-learning/pre-and-postdoctoral-program/jax-scholars.

To apply, please submit (1) a cover letter describing past research accomplishments, research interests, and career goals, (2) a current CV, and (3) the contact information of three references to catherine.kaczorowski@jax.org

Assistant Professor – Department of Biology (Job number: 10609)
Tenure-Track position in Developmental Molecular Genetics: As part of an expansion in molecular genetics research, West Virginia University invites applications for a tenure-track position at the Assistant Professor level in the Department of Biology (http://biology.wvu.edu) to begin August 2019. We seek an individual who uses molecular and/or functional genomic approaches to explore integrative questions about development in non-mammalian animal model systems. Applicants should have a broad biology background and strong interdisciplinary skills to develop an externally funded independent research program. Applicants should also have an openness to collaborative research and a desire to contribute to the undergraduate and graduate research and teaching missions of the department. Requirements include a PhD or equivalent degree in biology or a related field, a strong record of scholarly publications, strong post-doctoral experience, excellent written and oral communication skills, and the potential to secure external funding.

WVU, located in Morgantown, is a comprehensive land grant university enrolling about 30,000 students in over 100 degree programs. Our Carnegie Classification is “Doctoral Universities: Highest Research Activity.” The Department of Biology at West Virginia University offers a diverse, highly productive and well-funded research environment that is highly supportive of new
junior faculty. Existing departmental strengths include molecular genetics, behavioral neurobiology, and genomics.

To apply, please visit https://careers.wvu.edu, navigate to the position title listed above, and upload a single PDF file including a cover letter, curriculum vitae with a list of publications, a succinct outline of future research plans, and a one page teaching statement. In addition, arrange for three letters of reference to be sent electronically to WVUBiology@mail.wvu.edu. Review of completed applications will begin on January 21, 2019 and will continue until the position is filled. For more information about the position, contact Kevin C. Daly at kcdaly@mail.wvu.edu. For more information about WVU and the city of Morgantown, WV: https://biology.wvu.edu/about/jobs/about-morgantown.

Florida College System seeks to fill a position for Executive Director, Florida Student Success Center.
The Florida Student Success Center (FSSC) serves as an intermediary between colleges, and provides greater opportunities for colleges to collaborate and learn from one another. The Executive Director works under the supervision of the Chancellor of the Florida College System. For more information on the role of the position, qualifications and to apply please, click here.

Florida Conservation Corps - Opportunities
FLCC is recruiting for two exciting project areas.

The mission of the Florida Conservation Corps is to develop natural and cultural resource leaders by connecting them to areas of critical need in conservation, preservation, interpretation and resource based recreation. Click here to download flyer. For more information about FLCC, please visit their webpage at https://www.floridastateparks.org/florida-conservation-corps.

Ph.D. level Protein Scientist needed

QuarryBio (https://quarrybio.com/) is an early stage company that is developing a novel, mass spec based approach for in vitro measurement of membrane protein binding interactions and structure changes. Our technology will provide a high-throughput alternative to X-ray crystallography and cryo-EM, and can be performed directly on living cells. We are relocating our lab to Tallahassee, and are seeking a Ph.D. level protein scientist to help us finish the development of this new technology and launch commercially.

Essential Skills: Chemical modification of proteins, strong understanding of binding kinetics, sample preparation and LC/MS/MS analysis of proteins (buffer exchange, affinity purification, reduction/alkylation, and proteolysis). Analysis of bottom-up mass spec data analysis with proteomic search engines. Experience with a variety of basic techniques to assess protein integrity, oligomeric/aggregation state and binding interactions. Mammalian cell culture techniques with an emphasis on plasmid construction, transfection, protein expression/purification, and extraction of
proteins from cellular membranes. Adherent and suspension cell culture methods. Ability to work
in a fast-paced team-oriented environment.

**Helpful skills:** SDS-PAGE, SPR, DLS, CD, IF, DSC/DSF, and SEC HPLC analysis. Project
management and familiarity with programming languages such as python, R, or java. Protein
structure visualization with PyMol or equivalent.

**Ph.D. level Scientist needed**
We are seeking someone with experience in Mammalian cell culture techniques with an emphasis
on plasmid construction, transfection, protein expression/purification, and extraction of proteins
from cellular membranes, SDS-PAGE, Western blots. Adherent and suspension cell culture
methods. Ability to work in a fast-paced team-oriented environment is a must. Project management
a plus. Please direct inquiries for either job to eric.graban@quarrybio.com.
